

## REMARKS

In the Office Communication, it was pointed out that the application included a drawing labeled Fig. 6 but there was no brief description of the drawings of such figure. Accordingly, a requirement to add such description was made.

In view of the above amendment and the foregoing remarks, it is believed that this application is now in condition for passage to issuance and the same is respectfully requested.

Attached is a marked up portion of the specification showing the foregoing amendment.

Respectfully submitted,
